FRANK PATRICK ANNOUNCES RETIREMENT FROM HOCKEY

HE AND HIS BROTHER WILL WINTER IN THE LUMBER CAMPS—THE FAMOUS DUO OFFERED TO ASSIST EDMONTON THIS WINTER IF A TRIP AFTER THE CUP WAS ARRANGED—SUGGESTED GOING EAST ON THE CO-OPERATIVE PLAN.

A special despatch to the Capital from our Ottawa correspondent says: "The Patricks will not come." It is officially announced that Frank and Lester Patrick will not come East for the National hockey league season. A letter from the famous brother to Fred Taylor received yesterday bears the news that the brothers have decided to stay in the bush with their lumberjacks. The Ottawa press is a thing of the past. The latter was a thing of the past. The latter was a thing of the past. The latter was a thing of the past.

It was pretty generally known around Edmonton that Lester was through with hockey but the news of Frank's retirement came as a huge surprise. The latter was a thing of the past. The latter was a thing of the past. The latter was a thing of the past. The latter was a thing of the past.

The Patrick boys may return to hockey in a year or so but when they make up their minds to do so they may find the pro game is a thing of the past. Indeed, from this distance it would appear as if the salaried players would breathe their last after the present season.

In connection with the Patricks there is a story which has not yet been made public. At the end of last season there was a sensational report from Ottawa that Edmonton would again challenge for the Stanley Cup this winter and that the team would be, Winchester goal, Lester Patrick, point, Frank Patrick, cover, Deaton, centre, Newby Lalonde, rover.

SOME FUNNY INCIDENTS IN THE INTERNATIONAL LEAGUE

The present generation of baseball fans is unquestionably unaware of the fact that there at one time existed an International Baseball League. It was away back in 1878 that the first organization of this sort was formed. The following clubs comprised the circuit: Utica, Buffalo, Syracuse, Rochester, Longueville, Hornellville, the Maple Leafs, of Guelph, Canada, and the Tecumsehs, of London, Ontario.

While baseball is at present a universal pastime, the Canucks that played on the teams in the Big International League showed themselves to be quite adept at the game and extended the American representatives to their utmost in order to carry off the laurels. Buffalo emerged the victor in this international pennant race with but little to spare and the Utica were close behind the Bisons.

The season narrowed down to the crucial game for the title between Buffalo and Utica. The contest was played on the latter's home grounds and it was only through a freak of fortune—though rather unfortunate for the Utica team—that Buffalo was able to win the game and the pennant.

Utica had been leading their rivals by a two-run margin when the eighth inning opened and the staunch Buffalo adherents were ready to acknowledge defeat. The Bisons managed to get two men on bases, with one out. Now here is where Dame Fortune figured so prominently in deciding a championship race. One of the Buffalo batters slashed a grass cutter in the direction of third. Smith, who was playing that position for the home team, made a pretty pick-up, but in his haste threw wild past McGuinness on first. The ball went into the crowd and lodged in the frame work of a wagon.

McGuinness hastened into the populace after the ball. As he neared the

wagon, which was directly the cause of Utica losing the game, the farmer who owned the wagon and was seated near where the ball struck commenced to yell. "In the spring. In the spring!"

McGuinness, thinking that the owner of the voice meant that his bent went into a pool of water, raced up and down the field in an effort to locate said puddle. He failed to locate either spring or ball until the bases had been cleared and Buffalo was leading by one run. This advantage of one solitary tally was enough to win the game and the championship.

Despite their failure to win baseball's highest honors that year, Utica engaged in many exhibition games with the National League Clubs. Not a defeat was chalked up against Utica in these contests. The Chicago and Boston teams, the strongest outfits in the National League at the time, were whipped several times each by the Utica.

George Latham, who played second base for the Utica aggregation, became famous that season as a great base runner. His sliding into second was being picked out as a subject of a poem, entitled, "Slide, Latham, Slide With Care," which was inspired by an accident which befell Latham in a game one day. While executing one of his daring slides Latham's uniform was ripped to such an extent that he was obliged to lie prostrate on the ground for some time. Latham's uniform was brought with cover his person from the waist down. Thereafter slanders were carried in stock.

During the summer of that year a benefit game between the Utica and a picked nine was played for the benefit of Jim Devlin, all of the proceeds being turned over to Devlin. Devlin, and Bushington acted as the battery for the picked team.

Call Reporter: Those who know say that the Galt juniors will walk away with the championship.

Eddie Osaman, of Waterloo, Ont., who will figure on the Quebec line up this season, arrived in the ancient capital and practised with the club. He made a good impression.

MOODY BREAKS BOWLING RECORD

Captain of Maple Leafs Made Ten Successive Strikes and Drew Split—Scored 287

The record for the Olympic Alley was shot full of holes last night when Charles C. Moody, captain of the Maple Leafs, bowled the high score of 287, in a league game with the International Harvesters Co.

Scoring 163 in the first game, Moody commenced the second with a determination to get up around the 200 mark, and he certainly did.

When he struck in the first five frames it began to get interesting. By the time he had eight straight, the pool tables were almost deserted, and the crowd was dense around the alleys. When the Maple Leaf rolled over the pins for the 9th strike there was wild cheering and then everything was quiet. The next ball did not quite do what was expected, and the 7 and 9 pins were left standing, much to everybody's disappointment as they had hoped to see a possible record rolled off one of the pins with his last ball and his score read:

30, 60, 90, 120, 150, 180, 210, 240, 265, 287.

This is very near if not the highest score ever rolled on regulation alleys in Alberta and is a mark that will take some shooting at.

Previous high scores at the Olympic Alleys are: Bert Morris, 280; Gossnell, 170; Walter Black, 278. This is Mr. Moody's first score in Edmonton bowling circles as he has not been in the city last winter. He has been a consistent bowler at the Olympic and senior leagues, being known for his skill in picking off difficult splits.

There is a well-grounded suspicion among the local bowling fraternity that the possible will be recorded this winter and it is not safe for the fans to miss turning out to a bowl's game.

PRIZE FOR BOWLING.
The prize for the highest score recorded at the Y.M.C.A. alleys this winter is a box of chocolates, valued at \$5.00.

TORONTO HAS SOME BIG STARS

Of the Twenty Players Under Contract 12 Were Once Stars in the Major Leagues

President Jim McCaffrey and Manager Joe Kelley of the Toronto Baser team were the combined Santa Claus at the recent Eastern League annual meeting.

The classic was slipped off "Jennie's" bank roll and when he got through spending, his wallet looked as if one of the Bitter secret rollers had passed over it. But the Queen City magnate certainly harvested a fine crop when he returned to the men who will be good for some years in the Eastern.

From Kogge Bresnahan's St. Louis Cardinals, Toronto secured Catchers, Pitchers, Lush and Backer, from New York, Nat Schuster, Willie Keeler, from Cleveland, third baseman Bill Bradley, from Brooklyn, first baseman Tim Jordan.

Pitcher Carrol was traded to Montreal for Fitcher Winter, while the following players were loaned to Toronto: Boston Americans, Jimmy Frick to Newark, Grimshaw to Louisville, Louisville, Jim Lister, who was brought with cover his person from the waist down. Thereafter slanders were carried in stock.

During the summer of that year a benefit game between the Utica and a picked nine was played for the benefit of Jim Devlin, all of the proceeds being turned over to Devlin. Devlin, and Bushington acted as the battery for the picked team.

Call Reporter: Those who know say that the Galt juniors will walk away with the championship.

MANY GAMES FOR TONIGHT

If There Is Ice the Bankers, C. N. R., Deacons, Sommersville, Varsity and Seona Play

The hockey bee will be buzzing tonight if the weather man will only stop thinking of his Christmas shopping and get on the job.

A little zero weather with a few inches of snow thrown in for good measure will gladden the hearts of the hockey and curling devotees and give a more Christmasy aspect to things in general.

At the Strathcona rink this evening the A. H. H. teams of that city, Varsity and Strathcona, will meet in a practise game at 8.30.

Varsity has signed up a new left wing, Max Fyfe, who will be remembered as an outside wing on the Eskimo rugby team in 1909.

At the Thistle rink, a game has been arranged between the Deacons and the Sommersville Co., while the Bankers and C. N. R. may engage in a friendly struggle.

One called at 7.30 o'clock. The Y. M. C. A. will practise at the Thistle from 9 to 10, while the Druggists practice from 10 to 11.

The above all depends on a little drop in the temperature.

GLOOMY OUTLOOK AT GREAT FALLS

The Local Fans Cannot See How Union League Will Be Financial Success

Great Falls, Dec. 21.—The baseball situation in Great Falls is still "up in the air." Thirty fans talked in over last night at a meeting with George M. Reed, owner of the Great Falls franchise in the new Union League, and "Honey John" McCloskey, owner of the Butte franchise in the same organization, but when the session was over nobody could say that a baseball club in this city is yet assured.

The local men did not seem to think that Reed or McCloskey, either, had shown that a baseball club in this city, with the ability to keep its head above the financial sea. They wanted to know what it would cost. Reed could not tell them. Neither could McCloskey. The latter, however, said that he figured that his expenses in Butte for the season would be \$4,000 and the expenses of the Great Falls club would be something less than that.

"You tell us how much stock you will subscribe and then we'll tell you whether it will cover the expenses," said the baseball men.

"You tell us first what the cost is going to be and then we'll tell you whether we can subscribe the stock," answered the bunch of fans.

The classic was slipped off "Jennie's" bank roll and when he got through spending, his wallet looked as if one of the Bitter secret rollers had passed over it. But the Queen City magnate certainly harvested a fine crop when he returned to the men who will be good for some years in the Eastern.

From Kogge Bresnahan's St. Louis Cardinals, Toronto secured Catchers, Pitchers, Lush and Backer, from New York, Nat Schuster, Willie Keeler, from Cleveland, third baseman Bill Bradley, from Brooklyn, first baseman Tim Jordan.

Pitcher Carrol was traded to Montreal for Fitcher Winter, while the following players were loaned to Toronto: Boston Americans, Jimmy Frick to Newark, Grimshaw to Louisville, Louisville, Jim Lister, who was brought with cover his person from the waist down. Thereafter slanders were carried in stock.

HARVESTER WON TWO FROM THE M.L.

By Breaking Into the Winners Class the Olympics Are Now Shoved Into the Cellar

The International Harvester team in the Olympic League, sidetracked their hoodoo last evening and by taking two out of three from the Maple Leafs, broke into the "winners' column" and also made an exit from the cellar position in the Olympic league standing.

The first game went to the I. H. C. by 31 pins, the score being 752 to 727. In the second, Moody's enormous score, ably seconded by Smillian's 213, enabled the Leafs to grasp the 101st of 915 and win the game by 164 pins.

In the third, and deciding game, the big bowlers for the Maple Leafs could not stand prosperity, and left down badly, the Harvester aggregation out-jug out ahead by the narrow margin of 8 pins.

There were some very nice scores besides that of Moody's which is enlarged upon in another column.

Norm White, for the I. H. C., bowled very consistently, getting 194, 175 and 190, a total of 559. Smillian totalled 515, having a 213 single, while Moody collected 597. Murray for the Harvesters, was also there with 500.

The scores were:

Internationals:
Harmer 140 257 161-458
Anderson 120 137 279-376
Murray 161 210 177-548
Campbell 138 221 130-292
White 194 175 190-559

Team average—153.1.
Maple Leafs:

A new record in the basketball world was hung up at Hamilton a few days ago when the Ambitious City inmates defeated Brantford 11 by the score of 84 to 7. Brantford, the Hamilton center alone was responsible for 31 points.

Newby Lalonde, it appears, has decided to play with Canadians in spite of Renfrew's claim. He would hardly go to Renfrew after the fine way he was treated by the Nationals last summer.

National Drug and Chemical Company of Canada, Limited, . . . Montreal.

Mark this down. If a husband does not bully his wife, she will him. And a man is more fair-minded in his bullying than a woman.

It isn't always well to bring up a child in the way you want him to go, for, as a rule, he will prefer to go another way. Guiding a son is like trying to chase a hen through a gate.

A friend is not of much use to you when you have any trouble as really serious as a note to pay or a tooth-ache to endure.

PRELIMINARY COURSE

"There!" exclaimed the literary baron, replacing the volume on the shelf. "I've finished the last of Dr. Eliot's five feet of books. Now I'm ready to tackle one of the Sunday papers."

CYNICISMS

When a good fellow dies he does not provide in his will that his widow must not marry again. He prefers that she should, in order that two persons, a man and a woman, may mourn his death.

Buying by Faith as Well as by Sight

WHATEVER automobile you eventually buy—a great extent you buy it by faith in the men who make it. You can see the style. You can see the finish. You can feel the comfort. You can detect the noise or the silence of its running. But what of the quality underlying it all—the quality of steel in the frame—the accuracy of alignment—the perfection of fitted parts? Here is what we claim:

That nowhere in the world is a better car made than the Russell.

That nowhere is there better material or greater skill employed.

That nowhere is there another car so perfectly designed for service in Canada.

That not in Canada is there another organization to compare with the far-reaching Russell organization for taking care of its cars wherever they go.

Russell "30" \$2510 SPECIALLY EQUIPPED

"MADE UP TO A STANDARD—NOT DOWN TO A PRICE."

Specifications: Wheel base, 115 inches, wheels 34 in. x 4 in. front and rear. Special spring suspension. Shaft drive. Selective transmission. Full floating type of rear axle. Engine gives an actual 30-horse power.

Send for the new catalog which describes it fully.

ANTI-AMERICAN RIOTS BREAK OUT

Windows in Houses Smashed—Trouble Arises Over Sale of a Church

Bogota, Columbia, Dec. 21.—Anti-American riots broke out here yesterday and are still going on today. They apparently had their origin in a concerted protest against the projected sale of church property to the American Educational Union. The windows in the homes of several Americans have been broken and today an extra guard was placed about the office of Minister Frazier of the United States.

POET JOAQUIN MILLER'S DAUGHTER HERMIT IN N. Y.

New York—"I desire seclusion. Please do not take my time."

This sign, on the door of a cave-like room in Carnegie Hall, explains the poet's sign of "The Hermit of the Mountains," who has a cabin in solitude on the heights outside of Oakland, Cal.

Miss Miller is living the life of a hermit in the heart of New York, trying, as she says, "to find myself and to discover what I am here for."

Entitled to a prominent place in society by reason of her own talents and the far-spread fame of her father, she chooses to hide herself in a dimly lit room, once used as a Carnegie Hall box office, there to commune with the Muse and woo her Art. It costs her \$7 a week to live.

The sign on "The Hermit of the Mountains" denotes her mode of life, and the following motto, a part of one of her verses, gives her reason:

"You must resist red roses; You must remain a lily-white rose."

Miss Miller said today that above all things freedom was her great desire, and her greatest horror "the possibility of being a sheep and following a leader. Some society women do not order their own lives."

This latter, in spite of the fact that Miss Miller's mother is fond of society and is now spending several weeks here as the guest of friends socially prominent.

The young woman says she is happy and healthy. "Why should I say that my friends about my destiny?" she asked today.

"I couldn't stand the old life any longer and I broke away, resolved to be absolutely independent."

Miss Miller's father is in hearty sympathy with her.

OUR OWN MINSTRELS

"Mistah Johnsing, kin' yo' tell me de diff'ence 'tween a lawyer addressin' a jury and de seuse a man gives his wife w'en he comes home 'I'm de club'?"

"No, George, I give that one up. What is de difference between a lawyer addressin' a jury and de excuse a man gives his wife when he comes home late from de club?"

"De one stands to reason and de uthah don't?"

Ladies and gentlemen, the silver voiced singer, Prof. Heeza Wipper, will now sing the popular sentimental ballad, "What Laura Jean Libbey was Young and Tender."

LONDON SKEPTICAL OF DR. COOK

Explorer's Recent Confession Regarding in British Capital Merely as of Psychological Interest

London.—Dr. Cook's confession that he doesn't know whether or not he reached the pole is regarded in London merely as a psychological interest. General opinion is summed up by one paper as follows:

"It is difficult to know how much credence to put in his curious confession. No doubt hardship and privation have unkindly the minds of many men, and Cook's reputation is irretrievably damaged that we might be disposed to give him the benefit of the doubt were not that he already had falsely claimed to have ascended Mount McKinley and supported the claim with false photographs.

"Cook's mind really may have wandered during the arctic expedition, but we will find it difficult to make anyone believe it. Besides, the flight of fancy was too sustained and too well rooted in the imagination and hard case to be altogether attributed to unfortunate irresponsibility."

KASIER OFFENDS BY RELIGIOUS ACTIVITY

Berlin.—In addition to his temperance campaign the Kaiser also is engaged in a political dispute between the Protestants and Catholics of Germany.

The Deutsche Bote, the great Protestant organ, declares that the Kaiser is unduly influenced by the great Catholicism of South Germany, who have contrived to reach his ear through his friend, Prince Max Egon Furstenberg. This paper says that Chancellor Bethmann Hollweg, resenting this special influence, formally tendered his resignation, which the Kaiser would not accept.

The leading Socialist organ, at Munich, claims that the Queen of the Belgians, who was born a Bavarian princess, is an adherent of the Socialist party.

When the King of the Belgians accompanied by the Queen, recently opened Parliament, there was a noisy Socialist demonstration within the building. It was supposed that the Queen must have resented this demonstration, but according to the Muenchen Post the Queen afterwards declared her sympathy with the Socialists. She is reported to have said:

"I understand and sympathize with the Socialists and working classes. They want something which they have not got and therefore they shout for it. I sympathize heartily with the Socialists' efforts to improve the conditions of life of the laboring classes and I am among my best to teach my children to hold similar opinions."

This story of a Socialist queen has caused great alarm among the old-fashioned Prussians who see the foundation of the empire shaking when a crowned sovereign proclaims Socialist principles.

EXACT LOCALITY

Caller—I've noticed a curious thing about you. They generally catch themselves in the same spot.

Bobby (joining in the conversation)—Yes; but always catches himself behind the kitchen stove.

CENSUS QUIZ STIRS DUTCH

Subjects of Kaiser Perplexed by Some Searching Questions.—Total May be 65,000,000.—Population of 208,000,000 in 1915 is Estimate of One Economist.

Berlin.—Germany is in the throes of a census which was officially taken on Thursday, but which will not actually end for many weeks. When it is over the fatherland expects to wake up and find itself the possessor of 65,000,000 souls, or a gain of 4,500,000 since 1905. The German population experts are deeply impressed by this week's announcement that the United States has over 90,000,000 inhabitants. The American rate of increase during the last ten years is double the rate at which Germany is growing.

The census of Germany is not taken by official census takers, as in the United States, but by a series of intricate blanks which every householder in the country is obliged to fill out. Millions of otherwise intelligent Germans spent last week wrestling with the mysteries of the census forms.

Some Questions Searching

These are some of the searching questions which the Kaiser's perplexed subjects had to answer:

"If you don't know the exact date of your birth, how many years old are you?"

"What is your main occupation in life?"

"Were your babies nursed on their mother's milk or by wet nurse of from a bottle?"

"Are you subject to epileptic fits?"

"How many of your house windows look out on to the sea?"

"What was your mother tongue—German, Dutch, Friesian, Danish, Walloon, Polish or of he writes, and what are the names of the various rooms in your dwelling?"

"How many bathtubs have you?"

"Do you cook with gas or oil?"

"What rent do you pay?"

See 150,000,000 by 1980. German economists cherish ambitious hopes for the future of Germany's population. One authority says there will be 150,000,000 by 1980. Another expert, Prof. von Schmoller of the University of Berlin, peers into the distant future as far as 2125, when he sees a vision of 208,000,000.

"Such income and he writes, 'should will and must come if we wish to have a great and powerful nation, but we must have fruitful colonies abroad to take care of the surplus.'"

THE WORLD IN ONE COLUMN

A troop train, belonging to the Mexican government, was trapped by insurgents yesterday. An entire company of soldiers either killed or captured. Details of the battle are lacking.

The front post office officials estimate that over one million letters and newspapers have been despatched to England alone during the past two days.

The inquiry by the coroner has thrown no light on the direct cause of the explosion which wrecked a portion of New York yesterday. The damage is now estimated at between two and three millions. Dozens of witnesses have been examined but no headway has been made by the officials so far.

The November bank statement shows that the demand deposits totaled \$84,290,000, an increase of about nine millions over the figures for October. Current loans in Canada amounted to \$27,074,000, a decrease of approximately two millions.

One hundred and fifty-five bars of silver from Cobalt, valued at \$85,000, reached Toronto yesterday.

The Rome Triana states that ex-King Manuel of Portugal still hopes to regain his throne at some future date. The ex-king is destitute and for months has had no money enough to pay his own servants.

The Retail Merchants' associations are planning to send a gigantic delegation, at least 500 strong, to Ottawa to offer the representations made by the farmers' delegation which interviewed the premier a few days ago. A date for the entry into the capital has not been fixed as yet.

CHICAGO PASTOR AIDS CUPID

Chicago.—How a Chicago minister played Cupid to two childhood sweethearts separated for years by 6,000 miles of land and salt water, was told last night at a wedding supper given by the Rev. Frank D. Burhans, pastor of the Washington Park Congregational church, to Mr. and Mrs. Houston McCullough.

When Mr. Burhans was in Ireland last summer he met Miss Matilda Ford in Belfast, and learned of a boy and girl separated by the sea and McCullough. On his return to this country he learned of the same McCullough, who is a girl, and a girl named in Ogden, Nev.

McCullough expressed himself eager to marry his boyhood love from Erin and hastened to Chicago to meet Miss Ford, who came from Ireland in answer to a cable message from the minister. A new obstacle was created by the Canadian authorities who refused to allow Miss Ford to pass into this country before she was married. McCullough finally went on to Montreal and the ceremony was performed there.

Stargazer brings on showers of spiritual blessing.

Electric Restorer for Men

Phosphorus restores every pore in the body to its proper position; restores vision and vitality. Preserves dry skin and prevents wrinkles. Phosphorus makes you a new man. Price \$1 a box, or ten for \$10. Write to The Electric Restorer Co., St. Catharines, Ont.

NA-DRU-CO Headache Wafers

stop the meanest, nastiest, most persistent headaches in half an hour or less. We guarantee that they contain no opium, morphine or other poisonous drugs. 25c. a box at your druggist's, or by mail.

National Drug and Chemical Co. of Canada, Limited, . . . Montreal.

CHILDREN WERE PANIC STRICKEN

Fire in Holyoke School Stampedes Seven Hundred Kids—One Killed

Holyoke, Mass., Dec. 21.—In a frenzied rush of 700 panic-stricken school children to escape from fire in the Immaculate Conception parochial school, one boy was fatally injured and at least a score of others seriously hurt today.

The fire broke out in the basement of the school and the smoke filled the rooms of the building. The children became panic stricken and trampled on one another in a crazed flight from the building. Wilfrid Boussy will die. He was trampled upon, his skull fractured and he is injured internally.

CAVALIERI HAS GRIEVANCE; THINKS PRESS MALICIOUS

Singer Writes That She Expects to Return to Rome for Holidays—May Sing at Festivities in 1911.

Rome.—Lina Cavalieri, as they continue to call her here, notwithstanding her marriage to Chanler, writes often to explain what she calls "the exaggeration of the press and malicious insinuations" which journalists regard her personal affairs.

In one of the last letters, written in a mixture of Italian, French and English, she announces her intention of going to Rome for Christmas. If no important affairs prevent, in order to spend the festive season. Then she will be better able to explain by word of mouth how badly she has been treated.

She adds she hopes to find invigorating the air of her native land, and alludes to the possibility of being among the singers chosen for the festivities of 1911 for the celebration of the proclamation of Rome as the capital of Italy.

Cavalieri says in America she undoubtedly had her greatest triumph, she made there the greatest amount of money but she also suffered the greatest disillusion with regard to what she calls "the sentimentalism abroad to take care of the surplus."

When Grecco was summoned to the leopard's crate and told the circumstances he at once lighted the pipe. At the first puff the leopard quailed; the second started him around the crate. By the time the fourth hit him he sprang into the waiting lion cage, whining as if to say: "Take it away, take it away. I'm only a leopard, not a smoke consumer."

Many churches mistake caking in the shelves for bringing in the shekels.

WOMAN STIRS UP SCIENTISTS.

Paris.—The controversy over the question whether a woman in 1910 should be admitted to membership in the Academy of Sciences is waxing warm. It is considered as raising an issue which involves the future of all of the life sciences societies composing the institutes of France. The chances for and against Mme. Curie's success appear about even.

ABOUT TOWN

A recital will be given this evening by the students of Alberta college in piano, voice and violin.

The Deacons and the Sonnenmiller team will play a practice game at the Tatiest rink this evening at 8 o'clock.

Frank Barnes, who pleaded guilty on Monday to a charge of forgery, was sentenced by Judge Taylor to 2 years in the penitentiary.

Owing to unavoidable circumstances the opening of the new Royal George Hotel on First street, set for tomorrow will not take place until Monday next.

Inquiry at the General hospital this morning elicited the information that Herbert Dixon, the University student so dangerously ill with typhoid passed a quiet night.

The case, Dennon vs. Clover Hat Co., was resumed in the Supreme Court this morning after a two week's adjournment. Patrick Quinn, bookkeeper for the defendant pany, was examined as to the items on several accounts.

In police court this morning a gentleman who was gathered in by the police yesterday afternoon was fined \$20 and costs for using obscene language on the streets. He coughed up the requisite number of shillings and was allowed his liberty.

Three lone inebriates occupied the dock at the police station this morning. In the end two of them paid five dollars and costs and the other having no coin of the realm, was committed to Chief Lacey's custody for a period of ten days.

In reference to the complaint registered by several citizens regarding the distribution of manure on the boulevards in the winter, the city, Dr. Whitelaw this morning advised the commissioners that while there was no danger of the manure the benefits derived would not counterbalance the protests registered by the public.

An assault case in which two Galicians were the central figures, occupied the entire time of Police Magistrate Cowan this morning. When the evidence was all in the defendant was assessed one dollar and costs and adjourned so as to allow his unjustified temerity to get the best of him again.

The Life of Christ and the early Christians was the subject of a very interesting lecture by Herbert Booth in McDougall church last evening. The lecture was illustrated by moving pictures, and will be repeated on Thursday night. Pictures were shown illustrative of the glory and decadence of Rome.

Major Griesbach gave an entertaining talk in the separate school hall last evening, on his experiences with the Canadian forces in the Boer war. The lecture was under the auspices of the Black Watch camp of the Sons of Scotland. There was also a musical programme. Major Griesbach, during his talk said that the Boer once had earned a place in the British empire, and deserved highest respect.

At the regular meeting of the Edmonton Builders' exchange held on Monday evening, the following nominations were made for the officers of the association for the coming year: For president, R. J. Manson, Chas. May, R. J. Frost, G. W. Woughton; for vice-president, A. Patterson, J. H. Millar, A. McSparran; for second vice-president, Geo. Phaneasy, F. L. Saunders; finance committee, F. Somerville, T. M. Grindley, A. Deaton, A. E. Simpson, Geo. Phaneasy; membership committee, J. W. Mould, G. W. Boughton, C. C. Datson.

According to a story brought in by the mounted police, fire-water in large quantities was smuggled into the Stoney Plain Indian reserve last week, and had it not been for the timely interference of the mounted police, just when the braves of the reserve were starting in on a mandala civil war, things would have been very interesting. Three ring leaders, Louis Mary Ann, and Felix and William Ward, were sent to the Fort last night for six months. Hammond Mench was also taken to the Fort to serve six months for the same offence.

These recommendations were not dealt with last night and they will probably be turned over to the incoming council as unfinished business.

Grant to Curlers. Ald. Bush, who is out of the city was the only absentee at the meeting. The lone communication was from the Royal Caledonian Bospital committee soliciting a grant of \$200 to help defray expenses of the big event. Ald. Tipton although one of the few members of the council who is not a curler, spoke at length favoring the grant. He considered the advertising, in having several hundred representatives from all over the west, royally entertained while here, would be excellent for the city. Mr. Douglas and A. McLean were present as a deputation to speak in support of the grant. Mr. Douglas said he would require about \$2000 to operate the hospital, and of this amount the Edmonton council would probably contribute \$500.

"How is this money going to be spent I would like to know," said Ald. Lendrum. "I am opposed to giving away the city's money for such a purpose where we have to borrow it." He moved, in amendment to Ald. Tipton's motion, that the grant be not made but failed to get a second. The motion carried.

Alteration for Concessions. Mayor Duggan reported for the special committee appointed to deal with the proposed alteration in the high level plans for the south bank approach. Information had been sent Engineer Switzer that the requests for alteration will be granted in consideration of the following concessions:

That the C.P.R. will guarantee to provide a roadway from the bridge entrance along the north side of the track to a point eastward on Saskatchewan avenue. This would provide two arteries of travel for reaching the bridge from this side of the valley.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

That the C.P.R. will construct a 66-foot steel bridge with walks over the railway cut on Anthony street.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

That the C.P.R. will construct a 66-foot steel bridge with walks over the railway cut on Anthony street.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

That the C.P.R. will construct a 66-foot steel bridge with walks over the railway cut on Anthony street.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

That the C.P.R. will construct a 66-foot steel bridge with walks over the railway cut on Anthony street.

THE EDMONTON CAPITAL

URGE UP-STREAM PUMPING PLANT

Strathcona Board of Health Advances Council to Get New Water Supply

WILL GIVE PURE WATER

At Last Night's Meeting Strathcona Council Decided to Give Curlers Grant

(By Our Own Reporter.)

Strathcona, Dec. 21.—Undoubtedly the most important recommendation heard by the city council for many meetings was presented to that august body last night by the board of health in a report upon present conditions in regard to sanitation. This recommendation is nothing less than a request that before any further expenditure of considerable magnitude is authorized for enlarging the present pumping plant, the advisability of establishing a new station several miles further up the river at a point near the southwest boundary of the city be seriously considered.

If this suggestion is eventually carried out the city would be provided with a supply of the purest river water obtainable for a couple of decades at least. A pumping plant at that site proposed would take water far above any sewage contamination.

It is very difficult to be impossible with an intake leading to the present station. As was pointed out in its recommendation of the board of health a water station up-stream in the southwest corner of the city would be a very desirable addition to the city's water supply.

These districts can only be accommodated by the present system which is expensive and inefficient while with the plant removed the site proposed the required extensions would be very much reduced.

The report states that a plant at this point would make unnecessary the existing transmission line to Mill Creek as recommended in Engineer Potter's report. A removal of the power plant would not be necessary as the new water station could have its machinery operated by motors run from the present plant.

The full list of recommendations were tabulated in the report as follows: First—That the city engineer police has performed his duties conscientiously the work of the sanitary department has been satisfactory, and that he can give it and it is advisable that a sanitary inspector be engaged to replace him, to devote all his time to the work.

Second—After going thoroughly into the water supply question and bearing in mind the improvements at the pumping station adequate to all present demands as is the best thing to do in the long run. A shifting of the pumping plant up-stream before any further large expenditures are made is advisable.

Third—The proposed expenditure for this change is made justifiable through the numerous advantages which will attend the establishment of a new plant.

Fourth—It would not be necessary to remove the power house from the present site, it being feasible to send power from there to operate electric motors in the new station.

Want Nuisance Ground. Recommendation for the purchase of a half section of farm land, adjacent to the city if possible, which could be utilized for a nuisance ground. Part of the land might be leased for farm purposes and thus provide a source of revenue to the city.

Sixth—It is held advisable that the present sanitation system be altered within the next year. Earth pits are considered superior to the now generally used garbage pits.

These recommendations were not dealt with last night and they will probably be turned over to the incoming council as unfinished business.

Grant to Curlers. Ald. Bush, who is out of the city was the only absentee at the meeting. The lone communication was from the Royal Caledonian Bospital committee soliciting a grant of \$200 to help defray expenses of the big event. Ald. Tipton although one of the few members of the council who is not a curler, spoke at length favoring the grant. He considered the advertising, in having several hundred representatives from all over the west, royally entertained while here, would be excellent for the city. Mr. Douglas and A. McLean were present as a deputation to speak in support of the grant. Mr. Douglas said he would require about \$2000 to operate the hospital, and of this amount the Edmonton council would probably contribute \$500.

"How is this money going to be spent I would like to know," said Ald. Lendrum. "I am opposed to giving away the city's money for such a purpose where we have to borrow it." He moved, in amendment to Ald. Tipton's motion, that the grant be not made but failed to get a second. The motion carried.

Alteration for Concessions. Mayor Duggan reported for the special committee appointed to deal with the proposed alteration in the high level plans for the south bank approach. Information had been sent Engineer Switzer that the requests for alteration will be granted in consideration of the following concessions:

That the C.P.R. will guarantee to provide a roadway from the bridge entrance along the north side of the track to a point eastward on Saskatchewan avenue. This would provide two arteries of travel for reaching the bridge from this side of the valley.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

That the C.P.R. will construct a 66-foot steel bridge with walks over the railway cut on Anthony street.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

That the C.P.R. will construct a 66-foot steel bridge with walks over the railway cut on Anthony street.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

That the C.P.R. will construct a 66-foot steel bridge with walks over the railway cut on Anthony street.

That the company will agree to maintain the fill or embankment along the traffic road leading to the bridge.

approval of the Edmonton council but the report stated that Mayor Lee has already given sanction to the proposals.

The city assessor reported re-adjustment of cases involving arrears of taxes. The whole question will be taken up at a special meeting of the assessment committee this week.

In answer to Ald. Congdon Engineer McLean stated that he has engaged Radford and Smith, excavators, to deliver the steel for the Mill Creek bridge on the ground from the cars.

CITY COUNCIL HAD AN EASY MEETING

At the regular meeting of the city council last evening a resolution was passed which provides that on and after January 10th all coal, wood, hay and straw must be exposed for sale only on the new market site on First street. The by-law governing the new market was considered in detail at last night's meeting and will probably be finally passed next Tuesday evening.

Communications. The Alberta Broom Company, which is opening a factory on Second street, wrote the council asking what favors they might expect from the city. It might be a resolution passed, ed some time ago the company is entitled to free light and power for the ceiling in value \$500 per annum. The letter was referred to the industrial committee for a report.

George Bowen, agent for the Piner Lighting Company, requested permission to install pole lights on the north end of the bridge for his lights to citizens. The council turned down the application on the ground that it would be inadvisable to allow the erection of poles on city streets.

The secretary-treasurer of the city of Strathcona advised the Edmonton council that Strathcona was agreeable to the operation of cars on Sunday in that city.

The Strathcona council at its last meeting passed a resolution asking the Edmonton council to allow passengers to ride from the sister city to the north end of the bridge for a single fare. Commissioner Bouillon stated that passengers getting on at the south end of the bridge would only have to pay one fare, but those getting on in the interior of the city would either have to get off and walk across the bridge or pay two fares. The communication was referred to the commissioners.

Petitions. A petition, bearing 62 signatures, was received from residents in the west end, asking that the street car line be extended up Park street, instead of Edward street and if this was not possible to run the line from Edward to Park via Albany avenue.

The petitioners who filed it with the city limits was read for the first time and then referred to the legislative committee.

TO DATE TO CLASSIFY. TO RENT—2 ROOMED MODERN house with kitchen range, also stable for 2 horses, and 100 lbs. Rent reasonable. Apply to J. G. Connell, 419 Queen's Ave. Phone 2852.

BUILD DAM 192 FEET IN HEIGHT

Fielding's Report on Hydro-Electric Power Not Satisfactory to the Council

The report of John R. Fielding, the engineer engaged by the city to report on the possibility of developing power at Grand Rapids, 192 miles from the city, and another at a point near the Landing, 192 miles from the city, was presented to the city council last night.

Should the city decide to take up the first proposition the capital cost would be approximately \$2,000,000 and according to the report based on 10,000 horse power, electrical energy could be delivered in the city at \$20.63 per horse power.

While no survey has been made near the Landing Mr. Fielding estimates that power could be developed at that point at a capital outlay of \$2,015,549 and that the power could be delivered to the city at \$20.15 per horse power.

He also believes that a more favorable site could be found at some point on the river from which power could be delivered for a rate over \$16 per horse power, but does not estimate the capital outlay or give any indication as to where this point is.

The engineer, however, sums up his report by stating that the Grand Rapids site does not possess the requisite features to counterbalance the cost of a transmission line over 192 miles of territory to this city.

In connection with the site near the Landing, Mr. Fielding estimates that about 11 P. could be secured by building a dam 194 feet high at that point.

As the report is a very meagre one and it is felt that in order to get the details the commissioners will be asked to thoroughly dissect it and submit a report at a special meeting of the council.
